

How to construct a **Tri/Quad Mobile**

Construction steps:

For Small Tri and Quad Mobile:

- 1** Find and mark the centre points of the poster at the top and bottom (15mm in from the top and bottom edge).
- 2** Measure and mark 82mm either side of the centre point and punch with a standard single hole punch.
- 3** Repeat for each poster.
- 4** Insert knobs on the mobile fram into the punched holes on the posters.

For Large Tri Mobile:

Follow instructions above but substitute 82mm with 160mm.
